**Comment**

Regard the Howard Hughes Corporation's proposal to amend the building at 404 Ward ave/988 Halekauwila street: I am opposed to this build being re-designated as a rental only. The agreement was to sell the condo units. Allowing HHC to alter the original proposal should not be allowed. If the case is that HHC is uncertain of the success for the sales, so be it. HHC should no longer be able to manipulate the over-development of Kaka'ako. If there will not be enough potential buyers to start the project, it should not be allowed to be built. There should be more restriction in the development of this area
