Comment

It is unfair to the residents of 801 South St Bldg A, who already locked in their purchase and recently moved in, to have to pay to replace the windows due to the "glass rule" that was negated when the HCDA approved the 801 South St's application. If the glass rule was to be applied, HCDA should have enforced it during the approval process and not after the entire project has been completed. HCDA is all about "supplementing traditional community renewal methods by promoting and coordinating public and private sector community development." As such, the board should allow a waiver for this project and continue developing the Kaka'ako area. Thank you for your time in hearing my testimony.
