Total Years	22
With RMTC	22

## EDUCATION

- B.S., Civil Engineering,  
Santa Clara University,  
1999

## REGISTRATION

- 2003, Professional Civil  
Engineer, Hawaii (PE-8624)
- 2009, LEED AP BD +C

## AFFILIATIONS

- American Society of Civil  
Engineers

## PROFESSIONAL EXPERIENCE

Throughout his professional career, all at R.M. Towill Corporation, Mr. Nakaoka has held progressively responsible positions as junior engineer, design engineer, senior engineer, project coordinator, and project manager.

As Civil Project Manager, Mr. Nakaoka assumes overall responsibility for project progress and design quality. He is in charge of the planning and oversight of engineering efforts including preparation of construction plans, specifications, and cost estimates, as well as services during bidding and construction. He also provides coordination with government agencies and utility companies, and attends public meetings, as needed.

Mr. Nakaoka has participated in the design of infrastructure improvement projects throughout the State of Hawaii which include the design of roadway, sewer, water and drainage systems, grading, building site development and cost assessments. He utilizes the latest in computer aided design and drafting (CADD) for airfield design, roadway design, earthwork, and utility profiles, including use of metric units of measurement. He is familiar with FAA Circulars and HDOT, FHWA, AASHTO, and MUTCD criteria for civil design.
