The U.S. Department of Housing and Urban Development (HUD) sets income limits that determine the eligibility of applicants for its assisted housing programs. HUD typically uses the Section 8 very low-income level (VLIL) as the basis for deriving other income limits. The VLIL is calculated by taking the 4-person income limit equal to 50% of the estimated area median family income and making adjustments if this income is outside formula constraints. For example, the VLIL is increased for areas where rental housing costs are unusually high in relation to the median income or if it is less than the relevant State non-metropolitan median family income level. See "FY 2015 HUD Income Limits Briefing Material" [http://www.huduser.org/portal/datasets/il/il15/IncomeLimits\\_BriefingMaterial\\_FY15.pdf](http://www.huduser.org/portal/datasets/il/il15/IncomeLimits_BriefingMaterial_FY15.pdf)

HHFDC uses the HUD income limits for households at the 50% income level. For the Low Income Housing Tax Credit Program, the 60% income level is calculated as the Multifamily Tax Subsidy Project (MTSP) VLIL (for FY 2015, it is the HUD Section 8 VLIL) multiplied by 1.2 (or 60/50). The limits for households at other income levels are calculated in the same way.

The U.S. Department of Housing and Urban Development (HUD) sets income limits that determine the eligibility of applicants for its assisted housing programs. HUD typically uses the Section 8 very low-income level (VLIL) as the basis for deriving other income limits. The VLIL is calculated by taking the 4-person income limit equal to 50% of the estimated area median family income and making adjustments if this income is outside formula constraints. For example, the VLIL is increased for areas where rental housing costs are unusually high in relation to the median income or if it is less than the relevant State non-metropolitan median family income level. See "FY 2015 HUD Income Limits Briefing Material" [http://www.huduser.org/portal/datasets/il/il15/IncomeLimits\\_BriefingMaterial\\_FY15.pdf](http://www.huduser.org/portal/datasets/il/il15/IncomeLimits_BriefingMaterial_FY15.pdf)

HHFDC uses the HUD income limits for households at the 50% income level. For the Low Income Housing Tax Credit Program, the 60% income level is calculated as the Multifamily Tax Subsidy Project (MTSP) VLIL (for FY 2015, it is the HUD Section 8 VLIL) multiplied by 1.2 (or 60/50). The limits for households at other income levels are calculated in the same way.

The U.S. Department of Housing and Urban Development (HUD) sets income limits that determine the eligibility of applicants for its assisted housing programs. HUD typically uses the Section 8 very low-income level (VLIL) as the basis for deriving other income limits. The VLIL is calculated by taking the 4-person income limit equal to 50% of the estimated area median family income and making adjustments if this income is outside formula constraints. For example, the VLIL is increased for areas where rental housing costs are unusually high in relation to the median income or if it is less than the relevant State non-metropolitan median family income level. See "FY 2015 HUD Income Limits Briefing Material" [http://www.huduser.org/portal/datasets/il/il15/IncomeLimits\\_BriefingMaterial\\_FY15.pdf](http://www.huduser.org/portal/datasets/il/il15/IncomeLimits_BriefingMaterial_FY15.pdf)

HHFDC uses the HUD income limits for households at the 50% income level. For the Low Income Housing Tax Credit Program, the 60% income level is calculated as the Multifamily Tax Subsidy Project (MTSP) VLIL (for FY 2015, it is the HUD Section 8 VLIL) multiplied by 1.2 (or 60/50). The limits for households at other income levels are calculated in the same way.

The U.S. Department of Housing and Urban Development (HUD) sets income limits that determine the eligibility of applicants for its assisted housing programs. HUD typically uses the Section 8 very low-income level (VLIL) as the basis for deriving other income limits. The VLIL is calculated by taking the 4-person income limit equal to 50% of the estimated area median family income and making adjustments if this income is outside formula constraints. For example, the VLIL is increased for areas where rental housing costs are unusually high in relation to the median income or if it is less than the relevant State non-metropolitan median family income level. See "FY 2015 HUD Income Limits Briefing Material" [http://www.huduser.org/portal/datasets/il/il15/IncomeLimits\\_BriefingMaterial\\_FY15.pdf](http://www.huduser.org/portal/datasets/il/il15/IncomeLimits_BriefingMaterial_FY15.pdf)

HHFDC uses the HUD income limits for households at the 50% income level. For the Low Income Housing Tax Credit Program, the 60% income level is calculated as the Multifamily Tax Subsidy Project (MTSP) VLIL (for FY 2015, it is the HUD Section 8 VLIL) multiplied by 1.2 (or 60/50). The limits for households at other income levels are calculated in the same way.
