

Building Community & Place

The Hawaii Community Development Authority

**AKA Transit Oriented Development (TOD) or
Pedestrian Oriented Development (POD)**

+ Early Kakaako

Wetlands In Between the Harbor & Waikiki

Work Force Housing Became The Fabric of the Community

+ As Residents Fled to the Suburbs Kakaako Became a Forgotten Light Industrial Village

- Did you know that it cost more to develop new public roadways and infrastructure outside of Honolulu and takes a lot more time to pay for constructing that new capacity?
- The State Legislature appropriated over \$100 M to develop new public roadways in Kakaako so that a new mixed use residential community could be established.

HCDA Mandate

Community Building Tools

- **Zoning Authority**
 - **The Ability to Establish Patterns of Human Settlement**
- **Requirement to Articulate Community Vision & Master Plan**
 - **Infrastructure Plan**
 - **Public Facilities**
- **Stewardship/Asset Management**
 - **HCDA as a Developer of Public Facilities and Strategic Projects**
- **Form-Based Code & Complete Streets**

What is the Definition of Community?

- **A Group of People Living in the Same Place or Having a Particular Characteristic in Common**
- *A Feeling of Fellowship with Others, as a Result of Sharing Common Attitudes, Interests and Goals*

What is the Definition of Place?

- **A Particular Position or Point in Space**
- **A Building or Area Used for a Specific Purpose or Activity**
- **An Area with Definite or Indefinite Boundaries**
- **A Specific Area or Region of the World**
- ***A Place Comes Into Existence When We Give Meaning to a Part of a Larger, Undifferentiated Space***

Mauka Area Plan: Vision & Objectives

- **Overall vision: an “urban village”**
 - Chinatown as an example
 - Street level activity, pedestrian-oriented
- **Plan Objectives:**
 - Maintain & Encourage Industrial Use
 - Allow 100% commercial uses on a site
 - Allow flexibility in parking
 - Encourage smaller, low rise as well as high rise development
 - Accommodate small lot development
 - More flexibility in density for small lot developments

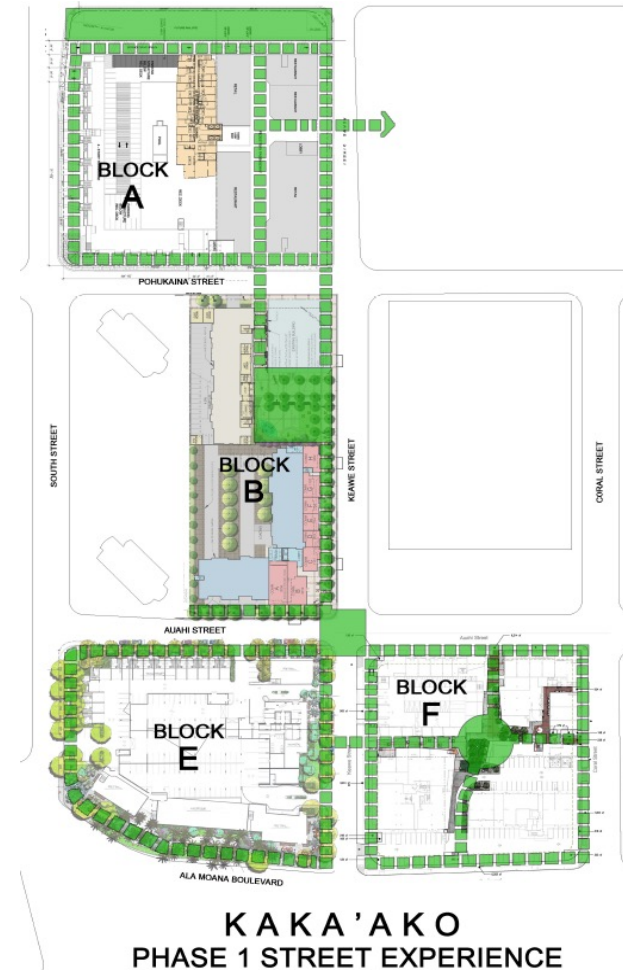

Photo courtesy Kamehameha Schools

Mauka Area Plan Principles

- **Develop “urban village” neighborhoods**
 - Mixed uses, pedestrian-scale relationship of building to street and public places
- **Create great places**
 - Use of corridors, existing public lands and redevelopment opportunities
- **Make connections**
 - Maintain and complete the street grid, strategic crosswalks, multi-modal design

Urban Design Principles

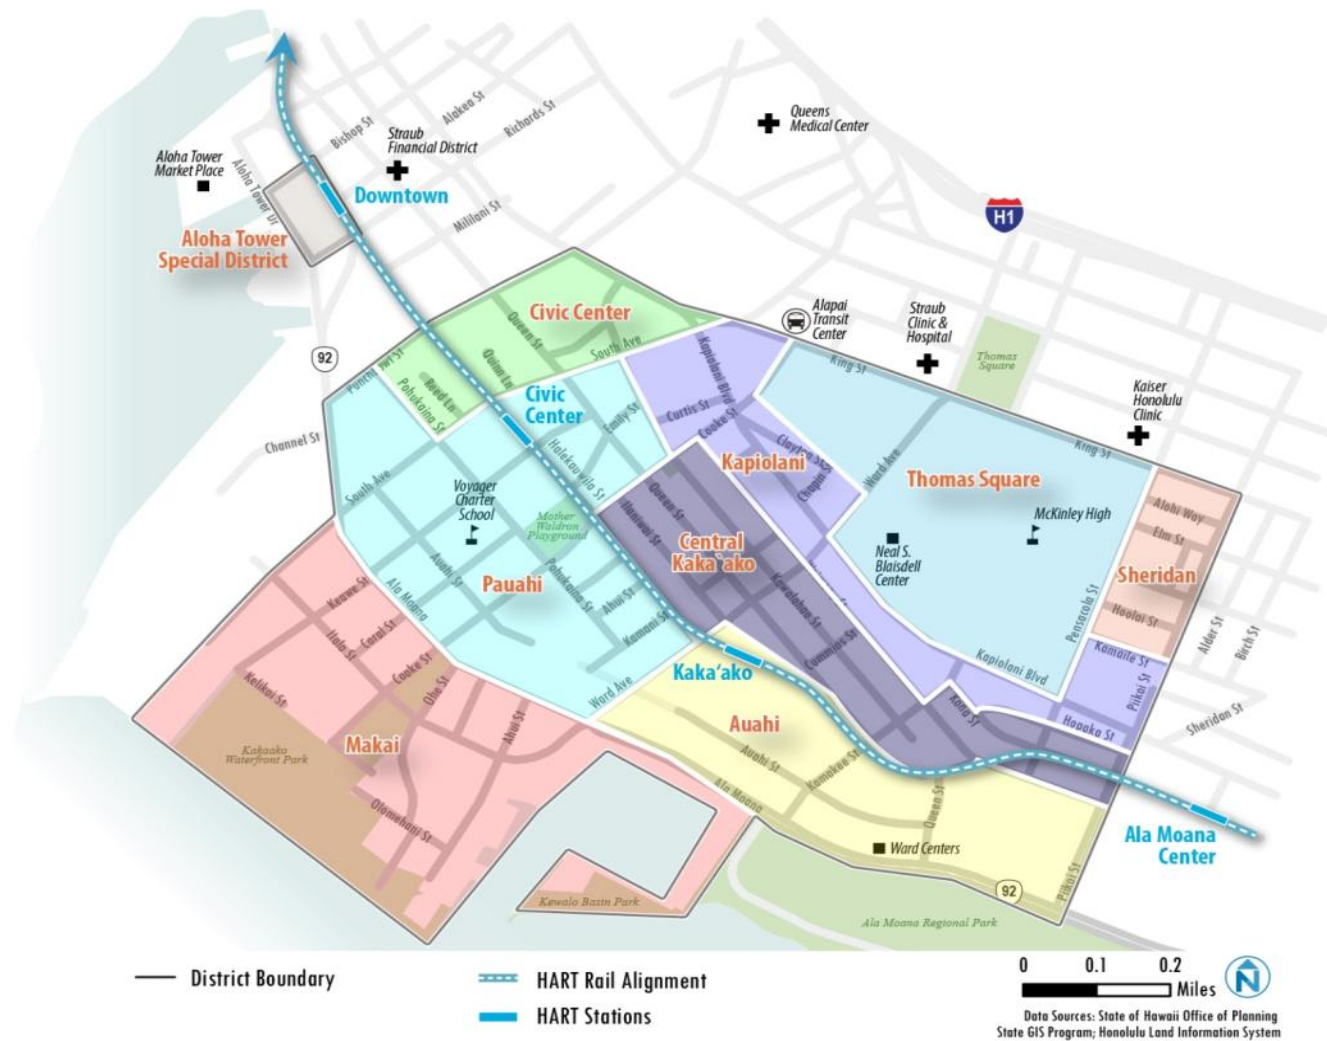

- Create outstanding pedestrian environment
- Provide improved street connections
- Create network of green streets
- Connect pedestrian paths across major thoroughfares
- Strengthen the Mauka-Makai linkage
- Support small-lot, mixed use, industrial pattern in Central Kaka ‘āko
- Support transit-oriented development

Form Based vs Euclidean Rules

- **Euclidean Zoning – Prevalent throughout Hawaii & US**
 - Designates Permitted Uses in Mapped Zones
 - Separates 1 Set of Permitted Uses From Another
 - May Be USE based and/or regulate HEIGHT, DENSITY, LOT COVERAGE
- **Form Based Zoning – Alternative to Euclidean Zoning**
 - Uses Physical Form vs Separation of Uses as Organizing Principle
 - Addresses Relationship of Building Facades w/ Public Realm
 - Keyed to Regulating Plan that designates FORM & SCALE rather than distinctions in land use types

Where Are These Projects Going to be Built?

The KCDD has nine neighborhoods, each with a unique character and predominant land use.

Isn't Kakaako Congested Enough Now?

TRANSIT

A tool for building great community places

A way to move people
between rail, parking and
local destinations

Transit Reduces Congestion By Getting Us Out of Our Cars

Why Bikes? Bicycles? *Instead of Cars?*

Hawaii
Community
Development
Authority

What if this space was instead...

PARKS

PLAZAS

COMMUNITY LIVING ROOMS

Destinations

What and Why

- **Locate Highest Density of Uses Near High Capacity High Frequency Transit (Bus and Hart Stations)**
- **Encourage a Mix of Uses Around Transit Stations, Corridors and Transfer Points to Spread Demand Throughout the Day & Create an Interesting and Dynamic Pedestrian Environment**
- **Create Quality Connections Between the Kakaako Districts and Neighboring Areas to Extend the Viability of Transit Choices**

Places

- **Adjacent to the District**
 - **Federal, State & County Offices**
 - **State Capitol**
 - **CBD & Chinatown**
 - **Ala Moana Shopping Center & Park**
 - **Waikiki**
- **Within the District**
 - **JABSOM & Cancer Center**
 - **Blaisdell Center**
 - **McKinley High School**
 - **Kewalo Basin Harbor**
 - **Waterfront Parks**
 - **Kapiolani Commerce**
 - **Hotel?**

HART Civic Center Station

Integrating Transit & Land Use

1 TOD Opportunity Sites mixed-use and residential uses

2 Activate station with uses, maximize glazing and open shopfronts

3 Place bus stops convenient to station, consider integrating shelters into development sites

4 Coordinate with TOD developments for street improvements, crosswalks, lighting and public art

5 Encourage single story retail to activate parking, for example - produce or market stalls

6 Establish bike lanes and local access connections

7 Option for vertical retailing and mezzanine connection to station

8 Step-back development for generous sidewalk areas and public realm enhancements

9 New alley and connections to reduce pedestrian conflicts

10 Pedestrian improvements, crosswalks and accessible ramps
Station-related public realm improvements, kiosks or bike-related retail

11 Joint development 690 Pohukaina and affordable housing project

Imagine a Complete Street on Halekauwila! *Includes A Shaded Cycle Track!*

BICYCLE

Density

- **Promote Mixed Use and non-Residential Infill and Redevelopment Along Transit Corridors**
- **Include Different Building Typologies**
 - **Towers**
 - **Town Houses**
 - **Mid-Rise Buildings**
- **Offset Increased Development Heights w/ Increased Active Public Space Amenities that Benefit the Buildings Residents and Tenants**

**A Mix of Building Forms that Work
for Developers and the Community**

Diversity

- **Provide a Mix of Housing Types at Varying Densities and Costs**
- **Preserve and Enhance *Active* Public Space (*Not Just Green Areas*)**
- **Include a Broad Mix of Commercial and Light Industrial Uses Compatible w/the Urban Village**

Demand Management

- **Manage Parking Supply and Demand Consistent w/Goal of Reducing Driving Trips**
- **Create an Environment to Enable Residents to Meet Many of Their Needs w/in the District, Reducing the Need to Drive Outside of the District**
- **Ensure that Non-Auto Mobility Choices are Convenient & Competitive w/the Auto to Maximize Non-Auto Travel**

Demand Management

Coordinate pedestrian parking and bicycle facilities for efficiency

On-Street Parking

- No Parking Anytime
- No Parking (AM Peak or PM Peak)
- No Parking (PM Peak Only)
- Unrestricted Parking (Lane blocked)
- Unrestricted Parking (lane not blocked)

Public Parking Facilities

- HART Rail Alignment
- HART Stations

Some Big Ideas!

- **Incentive Zoning**
 - **Developer Provides Public Amenities in Exchange for Increased FAR and Height**
- **Reduce Off-Street Parking Requirements When Developers Provide**
 - **Unbundled Parking, Provide Transit Passes, Car Share and Bike Sharing**
- **Building Code Flexibility**
 - **Consolidated Core of Elevators and Exit Stairs**
- **More Intersections/Intersection Density Produce Lower Levels of Auto Travel**
- **Work w/HPU and/or UH to Develop Bus Pass Program**

We Need to Establish a New Modal Hierarchy!

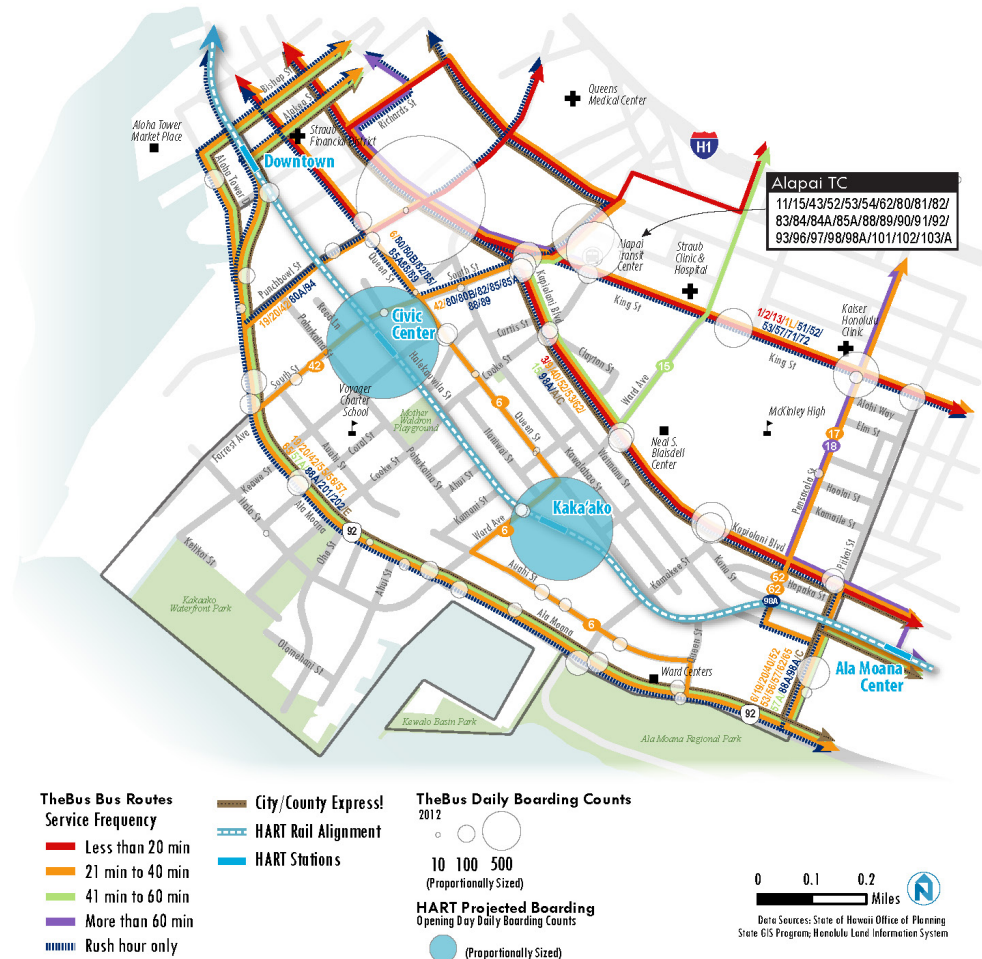

- **Pedestrian Oriented Development**

Town Circulator Idea

Enhances Access to Hart Stations and Key Town Destinations

ala Denver 16th Street Mall, Portland Pearl District Transit

Bike Share Idea

Establish City-Wide Bike Sharing Program

Work w/developers to locate sharing stations

Historic Preservation TDR Program Idea

- Development Rights
Sold by Property
Owner to Shift
Pressure of
Development
Elsewhere
