

MICHAEL S. BUNGCAAYO

P.E., LEED AP
Associate, Project Manager

Michael has worked on a vast range of projects which include entitlements; design and construction administration of commercial, industrial, educational, residential, and renewable energy site development projects throughout Hawai'i. Michael's responsibilities include the preparation of feasibility studies, master plans, construction documents, permit packages, and various reports for all phases of land development. He also has experience in maintaining compliance with NPDES requirements which includes inspections; preparation/revisions to stormwater pollution control plans (SWPCP); and spill prevention control and countermeasures (SPCC) plans in accordance with the Environmental Protection Agency requirements.
