

Mr. Ferraro co-founded Ferraro Choi And Associates, a leading sustainable design architectural, interior design, and research firm. The firm's office located in the historic IBM Building was certified LEED CI Platinum in August of 2011.

The firm's recent projects include University of Hawaii Information Technology Center, the UH Culinary Institute of the Pacific on Diamond Head, and the NOAA Inouye Regional Center on Ford Island, Pearl Harbor. In addition to work throughout Hawaii and the Pacific, he continues to work on research facilities in Antarctica for the National Science Foundation and more recently the Swiss Polar Foundation.

Mr. Ferraro is past president and board member of the Hawaii Architectural Foundation, past president of the Honolulu Sunrise Rotary, an advisor to the UH Sea Grant program, and a recipient of the US Green Building Council's Pioneer award for his thirty years of sustainable design practice. He is currently Vice President and President Elect for AIA Honolulu.

Joe received his Bachelor of Fine Arts degree at Pratt Institute and did his undergraduate and graduate studies at the UH School of Architecture. He worked in New York for 11 years where he practiced interior design and industrial design before moving to Honolulu in 1982 and receiving his architectural license in 1986. He currently holds licenses in New York and Hawaii.
