Professional Experience

Mr. Frederick J. Hong joined AHL in 2012 as a Project Architect with substantial experience in a variety of domestic and international projects. Over the years, he has been involved in the design and construction of large-scale developments and buildings in a broad range of sectors including residential, hospitality, retail, commercial, mixed-use, educational, and institutional.

Experienced in all project phases, Mr. Hong has consistently provided clients with a wide range of professional services including architectural design, master planning, project management, and sustainable design guidance. An early and avid adopter of Building Information Modeling (BIM) technologies, he has the technical expertise to plan, manage, and execute complex BIM projects through all phases of design. Within AHL, he currently oversees the company's initiatives in Information Technology as well as BIM training and project integration.
