Congressionally Directed Spending Request—Pulehunui Community Development District

The Pulehunui community development district, located in Central Maui, is one of the HCDA's development districts. The HCDA was given the district by the 2022 Legislature. Our primary undertaking is to develop infrastructure, including water infrastructure, to support development on lands owned by the Department of Land and Natural Resources and the Department of Hawaiian Homelands.

The availability of water is a key issue in any development on the island of Maui. The development of a wastewater reclamation facility in the Pulehunui district could help to reduce the need for potable water. We submitted to Senator Hirono's office a congressionally directed spending request in the amount of \$3 million for to be used for the planning and design of wastewater reclamation facility and collection system for irrigation and other uses in the Pulehunui district.
