Ms. Lindsey Doi, HCDA Asset Manager summarized the staff report provided in the board packet. The properties for sale are within close proximity to the HCDA office, and if acquired, would support HCDA's strategic plan of implementing innovative methods to develop more affordable housing. Ms. Doi explained that there is potential for adaptive reuse and mixed-use purposes, and Executive Director Nakamoto added that it is near a future rail station, contributing further to the property's appeal.

Chair Ishii agreed that this property is very attractive in terms of location and proximity to other amenities, and asked if HCDA has possible development strategy in mind.

Executive Director Nakamoto explained from a cost perspective, HCDA will first look into adaptive reuse opportunities for housing, and possibly mixed use commercial if feasible. Ms. Doi added that there are options to unbundle parking requirements that could allow greater opportunities for more affordable housing development.

Member Evans and Vice Chair Higa provided their support of this project.

Vice Chair Higa asked if it is possible to assume the ground lease that encumbers one of the properties before its expiration date in 2033.

Ms. Doi answered that the existing lessee has indicated that may be a possibility, but HCDA would have to negotiate further.

Member Sakoda asked how the HCDA would fund the property acquisition.

Executive Director Nakamoto answered that with Board approval, acquisition would be a cash purchase through HCDA's funds for reserved housing and improvement. Legislative funding may also assist in funding the purchase.

Member Streitz asked how the \$10,000,000 purchasing budget was determined, what the possible area median income levels could be for potential affordable housing residents, and if the newly adopted rules would affect the development potential of this property.

Executive Director Nakamoto answered that the purchasing budget was determined based on the sum of the properties' asking prices, but added that the HCDA will have to do a fair market value appraisal and due diligence on the conditions of the properties. Regarding area median income levels, Ms. Doi answered that it would depend on what type of housing is developed and what programs are utilized, but it could target the 60% AMI range. It would definitely be under 140% AMI. Executive Director Nakamoto answered that the newly-adopted rules would not affect the development potential of this property.

Chair Ishii reiterated that this is an informational presentation only, but it is beneficial for the board to be aware of these possibilities before any action is taken.
