§15-307-242 Regional infrastructure subaccounts; generally. (a) Upon request of a county government, the corporation may establish a regional infrastructure subaccount within the dwelling unit revolving fund for that county pursuant to the requirements of §201H-191.5. Each county subaccount so established may be used to provide grants and loans to state agencies, or loans to counties or private developers, to cover eligible costs of regional infrastructure improvements within that specific county.

(b) Regional infrastructure subaccount funds may be utilized for the planning, design, feasibility studies, construction, and materials for infrastructure improvements that would increase the capacity of the infrastructure facilities, including regional sewer systems, water systems, drainage systems, roads, and telecommunications and broadband. The corporation may also use subaccount funds to repay private investors for their investment plus any interest accrued on their investments made into the subaccounts to finance, in whole or in part, infrastructure improvements that would increase the capacity of said infrastructure facilities.

(c) The corporation may, from time to time and at its sole discretion, determine that there are sufficient funds available in the dwelling unit revolving fund to transfer to regional infrastructure subaccounts for the purpose of making regional infrastructure grants and loans to State departments and agencies, or regional infrastructure loans to county departments and agencies and private entities.

(d) The corporation may assess fees, including application, origination and servicing fees, as prescribed by the exhibit at the end of this chapter entitled "Fees", dated _____ to cover the administrative expenses of originating and managing the subaccounts. The fees shall be deposited into the dwelling unit revolving fund. [Eff 4/28/17; am and comp 4/28/17; am and comp **JAN 15 2022**] (Auth: HRS §§201H-4, 201H-191.5) (Imp: HRS §§201H-4, 201H-191.5)

§15-307-243 Commitment of subaccount funds. (a) Regional infrastructure subaccount fund loans may be committed in participation with other lenders.

(b) The corporation shall not issue nor make any commitment of regional infrastructure subaccount funds for any project unless the board has first made a determination that the purposes and amounts for which regional infrastructure subaccount funds are to be applied are consistent with the purposes of the program. All commitments of regional infrastructure subaccount funds shall be made subject to the availability of program funds. [Eff 4/28/17; comp **JAN 15 2022**] (Auth: HRS §§201H-4, 201H-191.5) (Imp: HRS §§201H-191.5)

expenses and costs as are directly attributable to the development and construction of the regional infrastructure project; provided that in no event shall the loan amount exceed a percentage of the total value of the infrastructure project as determined by the corporation for such project.

(b) Payments of regional infrastructure loans may include loan repayments, the value of credits or reservations for infrastructure capacity, and in-kind payments of improved real property; provided that the value of the credits or reservations, the appraised value of the improved property, and other loan payments, if applicable, shall not be less than the loan amount. (c) After review of the application for appropriateness, technical compliance and feasibility, the administrator may submit the proposal with a recommendation for approval, contingent approval, or disapproval to the board.

(d) The board may recommend that a request for regional infrastructure subaccount funds be allocated or may deny a request for regional infrastructure subaccount funds for a project. The board may also defer action on any request for regional infrastructure subaccount funds and may request that additional information be submitted.
