The U.S. Department of Housing and Urban Development (HUD) sets income limits that determine the eligibility of applicants for its assisted housing programs. HUD typically uses the Very Low-Income Limit (VLIL) as the basis for deriving other income limits. The VLIL is calculated by taking the 4-person income limit equal to 50% of the estimated median family income (based on the U.S. Census Bureau's ACS median family income estimates) and making adjustments if this income is outside formula constraints. For example, the VLIL is increased for areas where rental housing costs are unusually high in relation to the median income or if it is less that the relevant State non-metropolitan median family income level.

See https://www.huduser.gov/portal/datasets/il.html#faq\_2024.

These income limits are not used for projects funded with tax credits under section 42 of the Internal Revenue Code and projects financed with tax exempt housing bonds issued to provide qualified residential rental development under section 142 of the Internal Revenue Code, i.e., LITHC, RHRF, etc. Go to HHFDC's website at https://dbedt.hawaii.gov/hhfdc/files/2024/04/HUD-MF-AMI-Tables-Only-2024.pdf for tax credit rental program projects.
